memo	PC can use Bluetooth Adapter.	START+B+R power on. The 2nd Keyboard code.	Input method should be English.	Need ROOT Need Jailbreak	Also charge FC30 battery

The most common situation:

1. For Android devices, use Mode 1.

2. For iOS devices, use Mode 2 or Mode 3.

3. For pure touch screen games, use Mode 4.

Power OFF: Hold down START for 3 seconds.

Mode 1,2,3

Manual in detail: (Note: Make sure the GamePad battery is NOT empty!

If empty, use USB cable charge it.)

Mode 1,2,3 Bluetooth connection:

1. Turn on the power in mode 1,2,3.

2. Scan Bluetooth on Android or IOS device, and tap the "8Bitdo FC30 GamePad" to pare.

3. Map the keys in the App or Emulator you will be playing.

Mode 4

Emu-Touch Screen mode: (Android need ROOT, IOS need Jailbreak.)

1. Download FC30 App from the official website at www.fc30.com.

   (iOS user can add source http://app.fc30.com in Cydia)
2. Turn ON power in Mode 4.

3. Run FC30 App and scan Bluetooth device, then tap the "8Bitdo FC30 GamePad" to pare.

4. If asked for pairing code, enter "0000".

5. In Emu-touch screen mode, press hotkey SELECT+START to activate FC30 App

6. Now, just drag and drop, map the keys to the right place on screen, press SELECT+START to finish.
Tip: Double tap DPad or use two fingers can zoom it to fit games.

After use Mode 4, if you want to use Mode 1,2 and 3:
Note: For Android user, need to unpair the "8bitdo FC30 GamePad" first, and then reconnect it.
For IOS user, system Bluetooth will be unavailable, you must run FC30 software, and turn off Bluetooth in the software. Then, system Bluetooth will be available in 20 seconds.

Windows USB cable mode

正在安装设备驱动程序软件

1. Connect to USB port with USB cable, computer will recognize it.
2. Map the keys of the Game you will be playing.
