Storage
- If the unit will not be used for an extended period of time, power off the unit and place the unit with accessories into the package
- Do not set the unit in a damp, high temperature or the sun point-blank place

## Troubleshooting

### Question: Can't pair successfully after multiple connections?

Solution:

1. Check if the blue Bluetooth indicator lights on, if the indicator goes off, please slide the ON/OFF switch to "ON", if the blue Bluetooth indicator doesn't light on yet, please charge the unit
2. Perhaps there are many Bluetooth devices around the surroundings to interfere the searching, please close the Bluetooth function in the device you don't need
3. Power off and then power on the unit, to restart the Bluetooth function of the unit or your Bluetooth device
4. Unplug the AUX cable from the unit, and re-pair the unit and the Bluetooth device

### Question: The sound occurs staccato when play?

Solution:

1. Make sure the working distance is in 8-12m
2. Clear away the block between the unit and the Bluetooth device to prevent the poor connecting
3. Please check if the unit and the Bluetooth device is in low battery, if so, please charge the unit and your Bluetooth device

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
